

MOBILITY PLAN 2019

TRAFFIC CALMING

To design safer streets, we need your ideas. Identify areas where you feel unsafe or uncomfortable walking, cycling or driving.

SPEED CONTROL

Speeds must honor those who live in the area and who visit the area. Share your ideas for reducing high-speed and drive-thru behaviors.

SAFE ROUTES TO SCHOOL

Healthier transportation is possible for our daily trips. Share your knowledge of how streets can encourage routine physical activity and improve safety for all.

ACTIVE TRANSPORTATION

Do you want to be able to walk or cycle more in Edgewater? Let's discuss how we can encourage active transportation in our community.

ABOUT THIS PROJECT

Mark your calendars and join the conversation on ways to improve mobility in Edgewater. The City has hired a small team of national experts who help plan streets using a "people first" approach.

To develop an effective Mobility Plan, we need your input on what works and what does not work for you. Mobility choices require all of us to be informed, share ideas and confirm community priorities.

For more information, please call 720-763-3012 or email dmaples@edgewaterco.com.

HOW TO PARTICIPATE

- **Friday, March 1:**
Community Walking Audit: 11.30AM – 1PM
Location: 25th Ave and Sheridan
- **Saturday, March 2:**
Traffic Calming Design Workshop: 9AM – Noon
Location: Edgewater Civic Center

These are family-friendly events. Wear comfortable shoes for snow, rain or shine. We will have coffee and hot chocolate ready.
